

MICROGREENS COMPANY PROFILE

Fresh microgreens, grown to order — and everything you need to grow your own.

Clean food for every kitchen, a few grams at a time.

ABOUT US

Clean, fresh greens, grown to order.

Fewgrams is a microgreens company in Bengaluru. We grow fresh microgreens for families across the city, and supply the seeds, trays, cocopeat and racks for anyone who wants to grow their own. Every tray is sown only after an order comes in and cut on the morning it is delivered, with no pesticides and no cold storage in between.

HOW WE GROW

1

Seed we trust

Non-hybrid, non-GMO and untreated, checked by hand.

2

Clean trays

Sterilised before every sow, with fresh cocopeat each time.

3

Sown on your order

Nothing grown in advance. No freezing, no storing.

4

Cut and delivered

Cut on delivery morning and at your door the same day.

WHAT WE OFFER

Fresh microgreens

Harvested to order, delivered weekly

- **Weekly subscriptions.** Everyday Essentials, Rare & Exotic, or Pick Your Own — a different mix each week, delivered every Saturday.
- **18 varieties.** Radish, sunflower, mustard, pak choi, kale, broccoli, red cabbage, red amaranthus, beetroot, rocket, basil, dill, spinach, alfalfa, garden cress, wheatgrass, red onion and cabbage.
- **Order by weight.** Any variety in 100 g packs, for one-off orders.
- **Grown without pesticides.** Indoors, in 7 to 14 days, cut before pests can take hold.

Grow your own

Everything for a home or terrace setup

- **Microgreen seeds.** 18 untreated, non-GMO, non-hybrid varieties, with a sowing guide for each.
- **Trays.** Grow-and-drip tray pairs, in recycled or virgin food-grade plastic.
- **Horti-Coir cocopeat.** 1 kg and 5 kg blocks, ready to soak and sow.
- **Grow racks.** Shelf racks, open-frame angle racks and UPVC pipe racks, built to order.
- **Drainage cell mats.** Keep trays and grow bags off wet floors.
- **Ships across India.** Seeds, trays, cocopeat and racks go anywhere by courier.
